DESIGN EXPERIENCE

Partners In Health | Motion Graphic Designer | Sept, 2020 – Present

Partners In Health is an international nonprofit public health organization who provide healthcare in the poorest areas of developing countries. I was responsible for creating graphics and animating them for social media, emails, ads, and any other media. I also assisted in maintaining libraries and templates for other country site colleagues to use for their video projects. Creating lower thirds, titles, and other motion work.

Clearsurance | Web Designer | Nov, 2018 – Feb, 2020

Clearsurance is a customer-first insurance marketplace where people can find the best insurance and products to meet their specific needs and unique buying preferences. I was responsible for helping define and refine the interactive experience of the Clearsurance website and support product development. I made banner ads, illustrations, animations, and UI/UX components to increase the overall experience.

MullenLowe | Design Intern | Jun, 2018 – Aug, 2018

MullenLowe is an advertising and marketing communications agency located in Boston Massachusetts. I helped with a number of projects like making Snapchat filters for U.S. Cellular and their Summerfest and Milwaukee Brewers games. Also created 3D rendered boxes and key mock ups as welcome home packages for Century 21.

EnergySage | Animation Intern – Freelance Motion Designer | Apr, 2018 – Aug, 2018

EnergySage is an online marketplace that focuses on helping their customers and installers have an easier experience when going solar. I was in charge of animating their blog posts into sixty second motion graphic videos. I wrote up scripts, and storyboards along with researching music and voice overs for the videos.
